I also use it as a breast pack when fly fishing. I also stuffed in a lighter, waterproof matching case, my SureFire, a fictional recording compass, map, my HAM radio and frequency chart, and anything else I think I need. The holster itself is made of premium steering leather and the shoulder strap is made of leather and padded nylon. A nylon handle is used for the torso and is easily adjustable so that the holster ride can be adjusted as needs change. Guilty in a cross-draw style through the torso so it is easily accessible. If you are not used to having a weapon used through your torso with a strap that goes over your shoulder or behind your neck, you can experience some muscle tension and pain the first times you use your new equipment. Galco Kodiak The Kodiak holster is designed for large and unencrypted revolvers. Do you use a holster in your chest when you cross the bottom or hunt? I was provided with a Guides Choice Reload that contains six extra rounds in leather cartridge loops and slides on the shoulder strap. Now you will have a shoulder/neck harness that supports the weight of the gun instead of your belt. In addition, all materials and nylon are of American origin and all assembly and manufacturing is made internally. The whip is flat and has a well ventilated rear panel that helps distribute the load and provides a smooth surface that does not bind or chafe when using a package. The sample I received was a big size and I carried several weapons in the last few days. People of Hill Plastic Bag The Bag Kit was designed to be able to carry a hidden weapon in the back of the country without interfering with the shoulder straps of your pack. But what if you don't need concealment or speed? Final thoughts Chest holsters are a great addition to your gear list if you spend some time traveling orabroad.
